

Visualization Matching Game

R.No: 17    Reg. No: 192325060    Name: Hyderabad Mohammed Nawaz

Each chart on the left (A-J) matches exactly one description on the right (1-10). Write the matching number next to each letter's blank.

|    |                                                                                     |                                                                          |
|----|-------------------------------------------------------------------------------------|--------------------------------------------------------------------------|
| A. |    | 1. _____<br>Shows how a cumulative total changes over time               |
| B. |    | 2. _____<br>Shows how parts contribute to a whole                        |
| C. |    | 3. _____<br>Shows magnitude across two categories using color intensity  |
| D. |    | 4. _____<br>Shows three variables at once using position and size        |
| E. |   | 5. _____<br>Shows the relationship between two continuous variables      |
| F. |  | 6. _____<br>Shows the distribution of a single continuous variable       |
| G. |  | 7. _____<br>Compares distributions across groups and highlights outliers |
| H. |  | 8. _____<br>Compares amounts across separate categories                  |
| I. |  | 9. _____<br>Shows part-to-whole composition across categories            |
| J. |  | 10. _____<br>Shows how a value changes over time                         |

## Visualization Matching Game - ACTIVITY

H-Mohammed Nawaz - (192325060)

R.NO-17

| <u>Chart</u> | <u>Answers</u> | <u>Why (Reason)</u>                                                       |
|--------------|----------------|---------------------------------------------------------------------------|
| A            | 7              | Box plot compares distributions across groups and can highlight outliers. |
| B            | 2              | pie chart shows how parts contribute to a whole.                          |
| C            | 6              | Histogram shows the distribution of single continuous                     |
| D            | 5              | Scatter plot shows the relationship b/w two continuous variables.         |
| E            | 8              | Bar chart compares amounts across separate categories                     |
| F            | 9              | Stacked bar chart shows part to whole composition across categories.      |

|   |    |                                                             |
|---|----|-------------------------------------------------------------|
| G | 1  | Area chart shows how a cumulative total changes over time   |
| H | 3  | Heatmap shows magnitude using color intensity.              |
| I | 10 | line chart show how a values changes over time              |
| J | 4  | Bubble chart shows three variables using position and size. |
